

MSF EVALUATION DAY 2012:

February 8th Brussels

10.00 – 18.00

Evaluations as a tool for Accountability and Learning across MSF

The need for more and better evaluation practice – adapted to the reality of MSF – today is widely recognised. MSF is increasingly committed to stronger accountability and more systematic learning from operational experience.

The 2012 MSF evaluation day provides – for the second time - an opportunity to share examples of recent evaluations and approaches between different evaluation practitioners and MSF sections.

The day will be structured around three evaluation themes where MSF evaluators will present findings and recommendations from recent evaluations from different OCs. There will be room for discussions around each theme and the day will end with a debate focusing on the overriding theme of the day: **Mutual Accountability and Learning between MSF sections (OCs).**

We kindly invite Evaluation practitioners, Operation managers and Anyone concerned with evaluations and broader issues of Learning and Accountability.

Anneli Eriksson
Evaluation coordinator
MSF-SE/OCB evaluation project

Sabine Kampmueller
Head of the Vienna Evaluation unit
MSF-Austria

For questions and to register, please contact Anneli.Eriksson@msf.org
